# empathy

**Global Talent Trends | Asia** | Most employees (64%) believe their organization does not effectively balance economics and empathy when making decisions. Leading companies listen intently to their people and show they care by nudging them towards brighter futures.

## Focus on futures

Work together to ensure people thrive now and in the future

**80%** of executives agree that the purpose of an organization should extend beyond shareholder primacy

But only **36%** of organizations are delivering on this today

**70%** of employees feel at risk of burn out this year

## Sense with science

See ahead by augmenting AI with human intuition

Use of predictive analytics has increased (from 9% in 2016 to 23% today)

Just **18%** of companies use metrics to make buy, build, borrow decisions

And only **31%** use metrics to identify who is at risk of leaving

## Race to reskill

Transform the workforce by reskilling for a new world economy

HR leaders' **#2** transformation challenge is workforce capability

According to executives, only 45% of the workforce is able to adapt to the new world of work

But 72% of employees say they are ready to learn new skills

## Energize the experience

Inspire and invigorate people by redesigning their work experience

Just **6%** of HR Teams believe they deliver an exemplary employee experience today

But **63%** of companies are redesigning the organization to become more people-centric

Energized employees are **5x** more likely to report a workplace that is healthy and 4x inclusive and trusting
